

LINVISIBLE®

Project showcase

Stradella
Bel Air, Los Angeles, USA

Introduction

LINVISIBLE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that's necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBLE's international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

Description

Project: Stradella, 2018

Location: Bel Air, California, USA

Design Architects & Interior Architecture: SAOTA

Project Architect: Mark Bullivant & Tom Burbidge

Photo credits: Adam Letch

Stradella is the name of a luxurious renovation project completed by Saota studio on a 1970s house, located on a beautiful promontory in Bel Air.

The Studio's project aimed at maximising the existing square footage, creating generous openings capable of capturing the West Coast light and the entire panorama. The concept of "inviting the outside inside" embodies Saota's approach and the very essence of Californian living, with light, fresh and open interior spaces.

Linvisible's interior doors are perfectly integrated into the environments in which they blend with elegance and mastery.

Furnishing specifications

For this project, LINVISIBLE provided **HIGHLY TAILORED DOORS** in a variety of typologies, finishes and dimensions.

In addition to furnishing our doors, LINVISIBLE offered a complete service experience supporting our clients in the design phase, transportation and installation.

Products furnished:

ALBA - Filo 5 Hinged Doors

BREZZA - Filo 5 Vertical Pivot doors

Finishes:

Wood veneer, as wall

Details

Product descriptions

ALBA

Filo 5 Hinged Door

Linvisibile's hinged system is our exclusive patented door, which is completely flush with the wall and reinterprets the traditional hinged opening; available in pull and push opening models. It's distinguished by the use of concealed hinges and the absence of doorframes or jambs to achieve seamless continuity between wall and door.

It can be painted in the same finishing as the walls, becoming almost invisible, or the door structure can be left visible, with only the panel forming part of the design continuum and the panel finishing. The system also can be coated with almost any type of material (laminates, wall paper, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

BREZZA

Filo 5 Vertical Pivot Door

This system is the patented door that lies flush with the wall and swivels open on a vertical axis, thanks to a sophisticated hidden pivot system. Available with or without stop, the door can rotate on itself up to 360 opening degrees, obtaining a very exciting effect of movement. Linvisibile Vertical Pivot system is ideal for panel walls made of innovative high-tech materials, allowing designers to express their own ideas on architectural and functional space. It can be coated with almost any type of material (laminates, wall paper, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.
