# Introduction

LINVISIBLE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that's necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBLE's international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

## Description

**Project:** Palazzo Volpi

**Location:** Campo S.S. Giovanni e Paolo, Venice

**Architect:** Anna & Fred Design Studio  
[www.anna-fred.com](http://www.anna-fred.com)

**Schedule:** 2016

**[www.palazzovolpi.com](http://www.palazzovolpi.com)**

Palazzo Volpi is an ancient Venetian palace, dated back to the 13th-century, transformed into a luxury accommodation - consisting of 4 sumptuous apartments - in the heart of the Serenissima. The romantic atmosphere of the lagoon city is also found in its refined interiors, a sophisticated compilation between classic and modern. Linvisible's sliding doors, all coated in glass, elegantly reflect the spaces, amplifying the perception of the interiors. Doors like masterpieces, curated to the detail, with exclusive recessed handles also coated in glass, provide with fluid movements, silent and precise. Along with the sliding doors, Linvisible has furnished the Filo 10 Hinged doors of the entrance, coated in precious natural wood. Functionality and beauty, uniqueness and security, all this in Linvisible systems.

# Furnishing specifications

For this project, LINVISIBLE provided approximately **20 highly tailored doors**, in a variety of typologies, finishes and dimensions.

In addition to furnishing our doors, LINVISIBLE offered a complete service experience **supporting our clients in the design phase, transportation and installation.**

# Product descriptions

## **MAREA** Pocket Door

Linvisibile presents the first Pocket door, which holds an unprecedented technological, functional and patent surplus value. An innovative product that revolutionizes the concept of assembly, handling and maintenance of sliding doors. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well. The glass panel version is a unique system in the sliding glass doors panorama because it allows, thanks to patented guide rail with bumpers, controlling the movement of the door, for softly braked opening and closing.

## **ALBA** Filo 10 Hinged doors

Linvisibile's hinged system is our exclusive patented door, which is completely flush with the wall and reinterprets the traditional hinged opening; available in pull and push opening models. It's distinguished by the use of concealed hinges and the absence of doorframes or jambs to achieve seamless continuity between wall and door. It can be painted in the same finishing as the walls, becoming almost invisible. The system also can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

## **ALBA** Hinged doors

Linvisibile Filo 10 Hinged door is the exclusive door, which thanks to panel thickness of 102 mm, allows a perfect flush with the wall on both sides of the panel. The product stands out for only 3 mm perimetral gap between the panel and the wall. Filo 10 Hinged door is distinguished by the use of concealed hinges and the absence of door frames or jambs to achieve seamless continuity between wall and door. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.
