LINVISIBILE®

Project showcase

**Sanctuary House
Topsham, UK**

Introduction

LINVISIBILE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that's necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBILE's international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

Description

Project: Sanctuary House

Location: Topsham, UK

Architect: BARC Architects

Photo credits: Tom Hargreaves

Schedule: 2019

A marvellous project which is furnished with Linvisibile's all time classic invisible doors: Sanctuary House by Barc Architects.

Realized in contemporary design by adapting it to the client's future needs; the architect's aim is to create a sanctuary environment. Clients find a reflection of themselves as the building connects to the landscape in the midst of some great panoramic views.

The visual perfection and the quality of the materials achieve a 100% excellence.

Furnishing specifications

For this project, LINVISIBILE provided **15 highly tailored doors** coated with the **lacquered and as wall finishes**.

In addition to furnishing our doors, LINVISIBILE offered a complete service experience supporting our clients in the **design phase, transportation and installation.**

Products furnished:

ALBA Filo 5 Hinged Door, Fire Resistant Hinged Door

BREZZA Filo 5 Vertical Pivot Door

MAREA Pocket Door

Finishes:
Lacquered, As wall

Product descriptions

ALBA Filo 5 Hinged Door

Linvisibile's hinged system is our exclusive patented door, which is completely flush with the wall and reinterprets the traditional hinged opening; available in pull and push opening models. It's distinguished by the use of concealed hinges and the absence of doorframes or jambs to achieve seamless continuity between wall and door.

It can be painted in the same finishing as the walls, becoming almost invisible. Or the door structure can be left visible, with only the panel forming part of the design continuum and the panel finishing. The system also can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions ofered as well.

ALBA Fire Resistant Hinged Door

Our fire resistant REI 30 - EI130 Hinged Door (mod.F.11 REI) is a patented system for completely flush to wall doors and flush with the wall panels (concealed aluminum and hinges).

Linvisibile's Hinged doors are REI 30 certified, since they provide perfect fire resistance to meet the safety requirements of hotels and restaurants, contract installations, large public spaces and any other public environment where specific fire protection regulations have to be met.

Certified UNI EN 1634-1:2009 and BS EN1634-1:2009 and approved on art. 1 del D.M. 30/06/2004. Type approval number FE272EI1030P001; Certificate of fire resistance test N° 42/U/11-125FR.

Product descriptions

BREZZA Filo 5 Vertical Pivot Door

Linvisibile's hinged system is our exclusive patented door, which is completely flush with the wall and reinterprets the traditional hinged opening; available in pull and push opening models. It's distinguished by the use of concealed hinges and the absence of doorframes or jambs to achieve seamless continuity between wall and door.

It can be painted in the same finishing as the walls, becoming almost invisible. Or the door structure can be left visible, with only the panel forming part of the design continuum and the panel finishing. The system also can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.
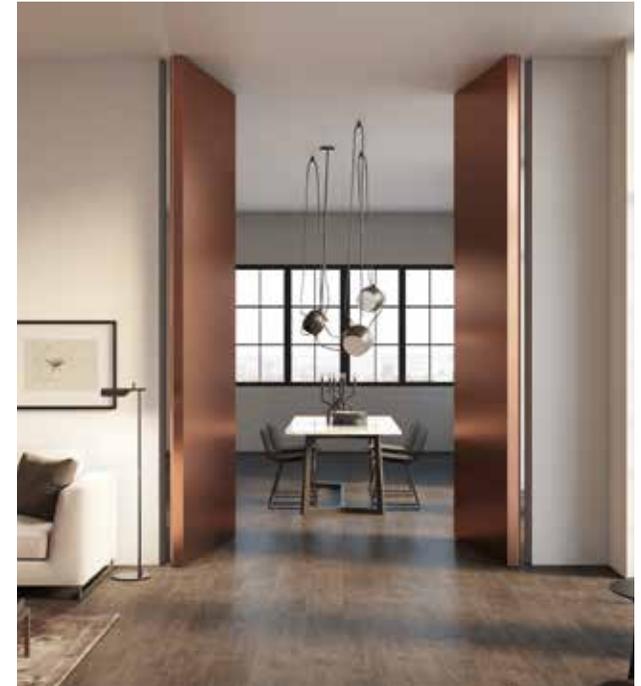

MAREA Pocket Door

Linvisibile presents the first Pocket door, which holds an unprecedented technological, functional and patent surplus value. An innovative product that revolutionizes the concept of assembly, handling and maintenance of sliding doors. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

Thanks to its patented guide rail with bumpers, controlling the movement of the door, it allows softly braked opening and closing.
