

LINVISIBLE[®]

Project showcase

Hillside House
Los Angeles, USA

Introduction

LINVISIBLE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that's necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBLE's international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

Description

Project: Hillside House

Location: Los Angeles, USA

Architect: SAOTA Architects

Photo credits: Adam Letch

Schedule: 2019

Linvisible's doors enhance a splendid project located on a promontory overlooking the whole Los Angeles City: **Hillside House** by **Saota Architects**.

Taking inspiration from the idea of seamless indoor/outdoor spaces, the external area is enclosed by a vast pool. The almost total absence of walls stands out in the interiors.

The 2,000 sqm villa is designed to maximize the panoramic potential of the site.

Furnishing specifications

For this project, LINVISIBLE provided a total of **6 highly tailored doors** in a variety of typologies, finishes and dimensions.

In addition to furnishing our doors, LINVISIBLE offered a complete service experience supporting our clients in the design phase, transportation and installation.

Products furnished:

ALBA Filo 5 Hinged Door, Filo 10 Hinged Door

BREZZA Filo 5 Vertical Pivot Door, Filo 10 Vertical Pivot Door

MAREA Pocket Door, Concealed Sliding Door

Finishes:

Lacquer, predisposition for Heavy Coatings

Product descriptions

BREZZA

Filo 10 Vertical Pivot Door

Made with a 10 cm thick panel - as thick as the wall - Linvisibile Vertical Pivot door Filo 10 is the first door totally flush with the wall on both sides. Thanks to a sophisticated system of concealed pivots, the door can rotate on itself to different degrees of opening, obtaining a very exciting effect of movement. Available with or without stop, the door can rotate on itself up to 360 opening degrees, obtaining a very exciting effect of movement. Filo 10 is an evolution of the Vertical Pivot door, can be made in all dimensions and with all coverings, meaning it adapts to all settings, and can be perfectly invisible thanks to total continuity between door and wall. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

ALBA

Filo 10 Hinged Door

Linvisibile Filo 10 Hinged door is the exclusive door, which thanks to panel thickness of 102 mm, allows a perfect flush with the wall on both sides of the panel. The product stands out for only 3 mm perimetral gap between the panel and the wall. Like all Linvisibile products, Filo 10 Hinged door is distinguished by the use of concealed hinges and the absence of door frames or jambs to achieve seamless continuity between wall and door. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

Product descriptions

MAREA

Concealed Sliding Door

Linvisibile Concealed Sliding door is the first flush-to-wall sliding door. An exclusive patented system that offers an innovative and elegant solution to the classic sliding doors. Available in motorized version with opening driven by a low-voltage motor and flush-to-wall control plate, or in manual version with flush fitting handle system. It can be coated with almost any type of material (metal, laminate, fabric) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well. Two cams cause the door to move; these cams allow moving the panel completely flush with the wall (when closing) and slide it inside the wall (when opening).

MAREA

Pocket Door

Linvisibile presents the first Pocket door, which holds an unprecedented technological, functional and patent surplus value. An innovative product that revolutionizes the concept of assembly, handling and maintenance of sliding doors. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well. Thanks to its patented guide rail with bumpers, controlling the movement of the door, it allows softly braked opening and closing.
